If you want to work with high-tech equipment and cutting edge technology, getting your hands dirty at the same time, then an automotive workshop could be the place for you.

The automotive industry is an exciting and varied industry to work in, with a huge diversity of well paid career positions available city and country wide. Training in the automotive industry will give you the skills you need to drive a rewarding career in what is a global industry.

Learn from industry experts.
Our outstanding training educators come with extensive industry experience and connections. Our personalised approach means you get one-on-one attention in classes. You also have access to the best professional products from the leading companies in the industry.

Gain hands-on practical skills.
Our focus is all about getting you work ready. With an emphasis on practical training, industry experience and work placements, you will gain real experience and the latest industry knowledge. So, when you graduate, you will have the skills that employers are looking for.

Access our industry partner network.
Bendigo TAFE has established a vast network of industry partners and has a strong reputation with employers across regional Victoria. By developing our courses in consultation with industry partners, we make sure that you gain the most current and up-to-date skills.
Let us help you progress to your dream career.

**VET in School (VETiS).**
VETiS offers you the opportunity to complete a nationally recognised qualification, while providing credit towards your VCAL, just like your other subjects. The study score can contribute directly to your ATAR score and give you access to guaranteed pathways for further study at Bendigo TAFE.

Find out more at bendigotafe.edu.au/VETinSchools

**Certificates.**
Certificate programs combine theory and practical components of a subject to prepare you for a job in your chosen industry. You can learn basic to advanced skills as you move up each certificate qualification. You can also choose to study further or get a post-trade qualification once you finish your certificate program.

**Pre-apprenticeships.**
Whether you are currently doing your VCE, VCAL or you’ve left school early, a pre-apprenticeship will get you on your way to working and further study in a specific industry. Pre-apprenticeships also combine literacy and numeracy skills units to give you extra support to get employed and into an apprenticeship.

**Apprenticeships.**
Apprenticeships are customised training programs in consultation with your employer, Bendigo TAFE and you. This gives you the latest industry skills and knowledge directly relevant to your job. You can earn while you learn and work towards your qualification. Go to page 10 for more information on apprenticeships.

**Short courses.**
A short course is a great way to update your current skills, start a new hobby or learn something totally new. We have short courses across a range of areas to help you grow professionally or personally. Visit bendigotafe.edu.au to find the right course for you.
PATHWAYS TO YOUR DREAM CAREER.

CAREERS IN AUTOMOTIVE

- Automotive Mechanical Trade Worker
- Auto Parts Sales Person
- Vehicle Sales Person
- Automotive Teacher
- Mechanical Repair Business Owner
- Motor Mechanic Apprenticeship
- Automotive Mechanical Trade Worker
- Light Engine Mechanic

> Certificate II in Automotive Studies (Pre-vocational) (22015VIC)
> Certificate III in Light Vehicle Mechanical Technology (AUR30612)
> Certificate III in Heavy Commercial Vehicle-Mechanical Technology (AUR31114)
> Certificate III in Outdoor Power Equipment (AUR30713)
> Certificate IV in Automotive Mechanical Diagnosis (AUR40212)

Go to page 18 for further course information.

HAVE YOU FINISHED YEAR 12?
A TAFE QUALIFICATION CAN SECURE YOUR FUTURE.

- Get a taste of a trade with a pre-apprenticeship. Gain basic skills in a trade with lots of support and resources.
- Find a job that supports an apprenticeship. Earn money while studying.
- Complete an apprenticeship. Learn practical skills specific to a trade.
- Get on track to a certificate, diploma or degree. Guaranteed work placements mean real world skills!
- Gain a certificate.
- Gain a diploma.

START A REAL CAREER WITH A TAFE QUALIFICATION

- Graduate with a certificate, diploma and degree.
- Graduate with three qualifications.
- Start a Uni degree from 2nd year with a pathway arrangement. Get a place at University no matter what your ATAR score.

PATHWAY TO YOUR FUTURE.

LOW ATAR? NO WORRIES!
GOING TO TAFE MAY SAVE MONEY AND TIME
NO NEED TO RELOCATE IF YOUR TAFE IS LOCAL
Bendigo TAFE is spread across five regional campuses across central Victoria and is home to over 9,000 students from diverse backgrounds, ages and interests each year. Not only do you have access to purpose-built training facilities, but also to a range of support services.

We partner with industry leaders to provide students with access to world-class training facilities, technology and teaching staff. Located at the old Bendigo Saleyards site, the Charleston Road campus is a thriving contemporary training facility, with new and refurbished buildings equipped with sustainable technologies.

The Charleston Road campus is only a 20 minute walk from the Bendigo train station, bus stops and the main shopping mall on Hargreaves Street. The V/Line can take you right through to Southern Cross station if you plan to continue your studies at the Automotive Centre of Excellence (ACE) at the Docklands campus in Melbourne.
Apprenticeships are a great way to combine structured training and paid employment.

You can begin while you’re still at school finishing Years 11/12. You don’t need a secondary school certificate or other qualification to start an apprenticeship, although this is highly regarded by employers.

As an apprentice you will earn an income while you are learning your trade. You will combine full-time work with either part-time, workplace based or block release study, depending on your employer’s needs. When you finish your apprenticeship, you will have a nationally recognised qualification that can take you anywhere in Australia and in many overseas countries as well.

**Australian Apprenticeship Support Network (AASN).**

AASNs are contracted by the government to support and facilitate the apprenticeship process for employers and individuals. AASNs can also help you with the recruitment process and provide mentoring and career advice.

Visit [australianapprenticeships.gov.au](http://australianapprenticeships.gov.au) for more information or call them on 13 38 73.

#### STEP 1 Preparation and research.

Figure out what trade you are interested in, do research on job opportunities and write or update your resume.

A pre-apprenticeship is a great way to get a taste of a trade and see if you would like to continue with it. You will also get the opportunity to learn how to build your resume and start the job seeking process.

#### STEP 2 Job hunting.

Start applying for jobs through networking with people you know, online or via Job Services Australia providers.

#### STEP 3 Sign up.

Once you've found an employer, you both must contact an AASN to organise signing a training apprenticeship contract. Select Bendigo TAFE as your preferred training provider to get started.

If you are eligible for a Health Care Card, make sure you apply for one prior to enrolling so you are eligible for concession fees.

#### Study period

- Full-time
- Part-time

#### Study mode

- Flexible
- Workplace
At Bendigo TAFE, we bring together the latest in industry education to give our students a complete learning experience.

Bendigo TAFE’s exceptional facilities and experienced teachers provide a real work learning environment. What sets our graduates apart are the well-rounded skillsets they learn during their study. Our focus is on graduating students who are work-ready.

Customised training packages.
As a business owner, we can work with you to deliver all your training in-line with your business’s needs. We work closely with you and your employee’s to deliver quality training to help you create lasting relationships and ensure your students are equipped with the right skills for your workplace.
We work hard to make it easy for our students to enjoy their experience at Bendigo TAFE. You can access any of our support programs when you need to throughout your time with us.

**TutorSpace.**
TutorSpace is a free study session with specialist tutors to assist people with how to write an assessment, how to begin a project, basic information technology skills or just to provide some assistance to build confidence. These sessions run at various times and days during the week throughout the school year and are located in the City campus library.

**Student support services team.**
Bendigo TAFE student support services provides free and confidential services to students across all campuses and aims to facilitate a positive learning environment for students.

Services provided include counselling support services, disability support services, student activities services, youth workers, Indigenous support services and international support services.

**Skills and Jobs Centre.**
One of our primary goals is to strengthen the employability of our students and help them find real jobs in their chosen industry. Our Skills and Jobs Centre is specifically dedicated to helping you to develop your employability skills. Our experts can help you with preparing for a job, career advice and support, access to our weekly vacancy listing and other useful resources.

To contact the centre, call 1300 100 606 or email skills&jobscentre@bendigotafe.edu.au
How much you pay is determined by the course you enrol in to, the scheduled hours you commit to undertake, your eligibility for a government-funded place and any concession entitlements you might attract.

Health Care Card.
If you are eligible for a Health Care Card, make sure you apply for one through Centrelink prior to enrolling so you are eligible to pay concession fees.

Study now, pay later with VET FEE-HELP.
VET FEE-HELP, an Australian Government loan scheme, can cover all or part of your tuition fees for diploma courses or higher. When you take out a VET FEE-HELP loan, the government pays the loan amount directly to Bendigo TAFE. When you finish your course and start working, you will need to repay the loan.
For more information, visit studyassist.gov.au

Part payment plans.
Part payment plans are available to anyone enrolling into a certificate course. Bendigo TAFE offers eligible students the option of paying their course fees over time. Weekly or fortnightly instalment payments are set up to cover tuition, material and consumable fees.
Find out more at bendigotafe.edu.au/courses/fees-and-charges

Scholarships and grants.
At Bendigo TAFE, we believe in rewarding hard work and achievement. We offer a number of scholarships and grants to help pay for your course.
Find out more on what you can apply for at bendigotafe.edu.au/students

Apprentice incentive programs.
The Australian Government supports apprenticeships through a number of programs that can help you financially including Apprentice Loans, Living Away From Home Allowance, Support for Adult Australian Apprentices Initiative, Australian School-based Apprenticeships, and more.
For more information, visit australianapprenticeships.gov.au

Applying for a course is easy. Just follow these simple steps to get your application in. Make sure you check your course dates and apply early so we can enrol you in the next intake.

1. Pick the course you want to study from this course guide and go online to our website.
2. Find the course using the ‘Find a course’ search option and click on ‘Online Application’.
3. Fill out the online application form, select your campus and hit ‘Submit’ button.

We will review your application and will contact you directly to confirm your application status.

Most courses commence at the start of semesters one and two, but there are some courses which take enrolments at any time throughout the year (rolling enrolments).

VTAC applications.
VTAC handles most applications for entry into higher education and some TAFE full-time certificate IV and higher qualifications. The course guide will indicate if you need to apply through VTAC for your course.
To find out how to apply via VTAC, visit vtac.edu.au

Apprenticeships.
The Australian Apprenticeship Support Network (AASN) manage all contracts and training.
To find your nearest AASN, visit australianapprenticeships.gov.au
Certificate II in Automotive Air Conditioning Technology

Course Code: AUR20212
Direct Entry / Australian Apprenticeship Support Network (AASN) / Rolling Enrolments

This course trains you for employment in automotive air conditioning systems. You will learn specific skills including how to carry out repairs to single electrical circuits, installation and maintenance, how to perform diagnostic procedures on air conditioning units and establishing relationships with customers.

Duration
Full-time: 6 months

Selection Process
Compulsory information session, self-evaluation and interview.

Career Opportunities
You will be accredited and qualified to work on specialised automotive air conditioning systems.

Possible job outcomes include:
• Automotive Air Conditioning Technician

Further Study Options
You can go on to complete a Certificate III in Automotive Electrical Technology (AUR30312), a Certificate III in Light Vehicle Mechanical Technology (AUR30612) or other relevant qualification.

Prerequisites
You may participate in this course while searching for suitable employment but you will need to complete extra practical work at further cost if you do not secure a workplace.

Certificate III in Automotive Electrical Technology

Course Code: AUR30312
Direct Entry / Australian Apprenticeship Support Network (AASN) / Rolling Enrolments

This course is the nationally recognised qualification for becoming an Automotive Electrician. You will learn about health and safety, customer relations, using tools, repairing, servicing and testing all the elements of automotive electrical systems.

Duration
Part-time: 3 years
Flexible: 2 years

Selection Process
AASN registration or interview for non-apprentices. Non-apprentices will be offered a position based on their past experience and ability to source additional skills practice.

Career Opportunities
On completion of this course you can find employment in the service, diagnosis and repair of vehicle electrical and electronic systems and components.

Job roles related to this qualification include:
• Automotive Electrician
• Automotive Electrical Technician
• Automotive Electrical Diagnostic Technician

Further Study Options
Credit transfers may be available into related courses such as the Certificate IV in Automotive Electrical Technology or diploma courses.

Prerequisites
This qualification is suitable for an Australian apprenticeship pathway. You may participate in this course while searching for suitable employment but you will need to complete extra practical work at further cost if you do not secure a workplace.

Certificate II in Automotive Studies

Course Code: 22015VIC
Direct entry / Semester one, semester two intake

This course assists you to pursue a career in the automotive industry as a trainee/apprentice. This course is highly regarded within the automotive industry with many employers sourcing new apprentices from the course graduates.

Duration
Full-time: 15 weeks

Selection Process
Individual interview.

Career Opportunities
You will study part of the theory component of an automotive industry apprenticeship course, which may help you gain employment as an apprentice.

Possible job outcomes include:
• Automotive Trade Assistant
• Automotive Apprentice

Further Study Options
You will have the opportunity to apply for one of the certificate III in automotive programs, including: Certificate III in Automotive Mechanical Technology (Motor Mechanics Apprenticeship), Certificate III in Vehicle Body (Panel Beating), Certificate III in Automotive Electrical Technology (AUR30312).

Prerequisites
You must be at least 15 years old at the time of application and have satisfactory literacy and numeracy skills.

Certificate III in Automotive Electrical Technology

Course Code: AUR30312
Direct Entry / Australian Apprenticeship Support Network (AASN) / Rolling Enrolments

This course trains you for employment in automotive air conditioning systems. You will learn specific skills including how to carry out repairs to single electrical circuits, installation and maintenance, how to perform diagnostic procedures on air conditioning units and establishing relationships with customers.

Duration
Full-time: 6 months

Selection Process
Compulsory information session, self-evaluation and interview.

Career Opportunities
You will be accredited and qualified to work on specialised automotive air conditioning systems.

Possible job outcomes include:
• Automotive Air Conditioning Technician

Further Study Options
You can go on to complete a Certificate III in Automotive Electrical Technology (AUR30312), a Certificate III in Light Vehicle Mechanical Technology (AUR30612) or other relevant qualification.

Prerequisites
During the training you will need to apply for an Australian Refrigeration Council Trainee Licence. You may participate in this course while searching for suitable employment but you will need to complete extra practical work at further cost if you do not secure a workplace.

This course is also available at our Docklands campus!
Certificate IV in Automotive Mechanical Diagnosis

Course Code: AUR40212
Direct Entry / Australian Apprenticeship Support Network (AASN) / Rolling Enrolments

This course is designed for students who are in the workplace and who wish to expand their knowledge of vehicle systems. The specific subjects you study will be discussed upon enrolment with the teacher/coordinator.

Duration
Part-time: 2 years
Flexible: 1.5 years

Selection Process
Compulsory interview. Previous study requirements apply to this course.

Career Opportunities
The Certificate IV in Automotive Mechanical Diagnosis provides you with advanced training to further develop your diagnostic and technical skills.

Job roles related to this qualification include:
- Automotive Lead or Master Technician
- Automotive Technical Adviser

Further Study Options
Students who graduate from this qualification may elect to progress to diploma level studies.

Prerequisites
You must have completed Certificate III in Automotive. You must display a high degree of self-directed learning with good communication skills and research abilities. On-the-job candidates must be dedicated to studying off-campus.

Certificate III in Outdoor Power Equipment

Course Code: AUR30713
Australian Apprenticeship Support Network (AASN) / Direct entry / Rolling enrolments / Off campus

This qualification provides skills and knowledge to perform a range of service and repair tasks on light engines such as ride on mowers, chainsaws and small engines. Develop a trade career working in the outdoor power equipment industry.

Duration
Full-time: 4 years

Selection Process
AASN registration or interview for non-apprentices. Non-apprentices will be offered a position based on their past experience and ability to source additional skills practice.

Career Opportunities
Job outcomes targeted by this qualification include:
- Outdoor Power Equipment Technicians
- Repair Technicians

The work may also include tasks related to the operation of the business and/or the supervision of others.

Further Study Options
This course leads to advanced study in automotive certificate IV or diploma courses.

Prerequisites
Satisfactory literacy and numeracy skills. You must be at least 15 years old at the time of application. This qualification is suitable for an Australian apprenticeship pathway. You may participate in this course while searching for suitable employment but you will need to complete extra practical work at further cost if you do not secure a workplace.

This course is also available at our Docklands campus!
Certificate III in Light Vehicle Mechanical Technology

Course Code AUR30612
Australian Apprenticeship Support Network (AASN) / Direct entry / Rolling enrolments / Off campus

This course provides the theory component of a light vehicle automotive apprenticeship. You will learn the knowledge, skills and applications required to begin a career as an Automotive Tradesperson.

Duration
Full-time: 4 years

Selection Process
AASN registration or interview for non-apprentices. Non-apprentices will be offered a position based on their past experience and ability to source additional skills practice.

Career Opportunities
This course prepares you to perform mechanical work in the automotive light vehicle service and repair industry. Job roles related to this qualification include:
- Light Vehicle Mechanical Technician
- Automotive Mechanical Trade Worker
- Parts Sales Person
- Vehicle Sales Person
- Automotive Teacher
- Mechanical Repair Business Owner.

Further Study Options
You may continue on to higher level studies, such as certificate IV or diploma studies.

Prerequisites
This qualification is suitable for an Australian apprenticeship pathway. The course has high theory content and requires students to be dedicated to achieve the study portion as well as the skills component. You may participate in this course while searching for suitable employment but you will need to complete extra practical work at further cost if you do not secure a workplace.

Certificate III in Heavy Commercial Vehicle-Mechanical Technology

Course Code AUR31114
Australian Apprenticeship Support Network (AASN) / Direct entry / Rolling enrolments

This course provides you with the theory component of a heavy commercial vehicle automotive apprenticeship. You will learn the knowledge, skills and applications required to begin a career as a Heavy Automotive Vehicle Tradesperson.

Duration
Full-time: 4 years

Selection Process
AASN registration or interview for non-apprentices. Non-apprentices will be offered a position based on their past experience and ability to source additional skills practice.

Career Opportunities
This course is intended to prepare you to perform mechanical work in the automotive heavy commercial vehicle service and repair sector. Job roles related to this qualification include:
- Heavy Commercial Vehicle Technicians
- Service Adviser

Further Study Options
This course leads to advanced study in the automotive field at certificate IV or diploma level automotive courses which could lead to employment opportunities as a Service Adviser or Advanced Diagnostician.

Prerequisites
Satisfactory literacy and numeracy skills. You must be at least 15 years old at the time of application. This qualification is suitable for an Australian apprenticeship pathway. You may participate in this course while searching for suitable employment but you will need to complete extra practical work at further cost if you do not secure a workplace.
Certificate III in Mobile Plant Technology
Course Code: AUR31212
Direct Entry / Australian Apprenticeship Support Network (AASN) / Rolling Enrolments
This course trains people who work with heavy vehicle mobile plant equipment and earthmoving. You will gain the skills and knowledge to completely carry out service, repair and diagnostic procedures.
Duration
Part-time: 3 years
Flexible: 3 years
Selection Process
AASN registration or interview for non-apprentices.
Non-apprentices will be offered a position based on their past experience and ability to source additional skills practice.
Career Opportunities
This course prepares you to perform mechanical work in the automotive heavy vehicle service and repair sector.
Job roles related to this qualification include:
• Mobile Plant Technician
Further Study Options
You may continue on to higher level studies, such as certificate IV or diploma studies.
Prerequisites
Satisfactory literacy and numeracy skills. You must be at least 15 years old at the time of application. This qualification is suitable for an Australian apprenticeship pathway. You may participate in this course while searching for suitable employment but you will need to complete extra practical work at further cost if you do not secure a workplace.

Certificate III in Agricultural Mechanical Technology
Course Code: AUR30412
Direct Entry / Australian Apprenticeship Support Network (AASN) / Rolling Enrolments
This course trains you for work with heavy vehicle agricultural equipment. You will gain the skills and knowledge to competently carry out service, repair and diagnostic procedures.
You’ll learn how to apply safe work practices, carry out servicing operations and develop knowledge of diagnostic procedures.
Duration
Part-time: 3 years
Flexible: 3 years
Selection Process
AASN registration or interview for non-apprentices.
Non-apprentices will be offered a position based on their past experience and ability to source additional skills practice.
Career Opportunities
This course is intended to prepare you to perform mechanical work in the agricultural vehicle and equipment service and repair sector.
Job roles related to this qualification include:
• Agricultural Mechanical Technicians.
Further Study Opportunities
This course leads to advanced study in Certificate IV in Agricultural Mechanical Technology (AUR40212) or higher level diploma courses.
Prerequisites
Satisfactory literacy and numeracy skills. You must be at least 15 years old at the time of application. This qualification is suitable for an Australian apprenticeship pathway. You may participate in this course while searching for suitable employment but you will need to complete extra practical work at further cost if you do not secure a workplace.

Certificate III in Marine Mechanical Technology
Course Code: AUR30514
This course will give you the knowledge and skills to gain employment working with boat engines and other mechanical equipment in the retail service and repair sector in the marine industry.
Duration
Part-time: 3 years
Flexible: 3 years
Selection Process
AASN registration or interview for non-apprentices.
Non-apprentices will be offered a position based on their past experience and ability to source additional skills practice.
Career Opportunities
This course gives you the skills to work in the marine mechanical service and repair industry. You will typically be involved in tasks involving defined and known routines, methods and procedures and providing solutions to a limited range of predictable problems.
Job roles related to this qualification include:
• Marine Mechanic
• Marine Technician
Further Study Opportunities
This course leads to advanced study in Certificate IV in Automotive Mechanical Diagnosis (AUR40212) or higher level diploma courses.
Prerequisites
Satisfactory literacy and numeracy skills. You must be at least 15 years old at the time of application. This qualification is suitable for an Australian apprenticeship pathway. You may participate in this course while searching for suitable employment but you will need to complete extra practical work at further cost if you do not secure a workplace.

Certificate III in Automotive Engine Reconditioning
Course Code: AUR31312
This course is also available at our Docklands campus!
This course is also available at our Docklands campus!
This course is also available at our Docklands campus!
Automotive Centre of Excellence.

Courses at the Automotive Centre of Excellence (ACE).

From its award-winning 5-star environmentally sustainable design to the cutting-edge facilities, ACE breaks new ground in the automotive training sector and is poised to continue revolutionising the industry for years to come.

Automotive Electrical Lab.

Training Systems Australia (TSA) is at the forefront of supplying world-leading training technologies in a range of vocational fields including automation and robotics, electrotechnologies, automotive and power engineering. TSA completely equipped ACE’s purpose built Automotive Electrical laboratory and is proud of its ongoing relationship with Kangan Institute.

As a student at ACE, you can also access these facilities!

Short courses at the ACE Docklands campus:

- Introduction to hybrid automotive drives
- Painting and panel beating
- Vehicle restoration and panel fabrication
- Basic car care maintenance
- Hybrid and battery electric vehicle safety inspection
- Car detailing
- Accessory fittings
- Servicing
